EXAM GLOVE PORTFOLIO

As a direct sourcing alternative, S2S Global benefits Premier members by removing costs from the supply chain and by providing a greater impact on product flow, pricing and quality under the Blueline® brand.

S2S Global offers a comprehensive selection of **NITRILE** and **VINYL** exam gloves to meet the many needs of healthcare facilities. Choosing the right glove is a simple process. First consider the use and then what features will be best for your staff.

All Blueline Exam Gloves are powder-free and ambidextrous with beaded cuffs, designed for single use only.

Please consult the following pages for additional details specific to each glove line.

Blueline™

NITRILE EXAM GLOVES

All Blueline™ Nitrile Exam Gloves are made with Synthetic Nitrile Rubber (NBR) and feature beaded cuffs. They are powder-free, ambidextrous and designed for single use only. Blueline™ Nitrile exam gloves are not made with natural rubber latex.

506 - Plus Improved Thinner Technology Nitrile Exam Gloves

Our most popular glove, the Blueline™ Plus Improved Thinner Technology Nitrile Exam Gloves combine feel, fit, strength, comfort, tactile sensitivity and value. The Blueline Plus line offers additional enhancements including thicker fingertips and improved donning. These gloves are tested for use with chemotherapy drugs.

504 - Plus Nitrile Exam Gloves

Blueline™ Plus Nitrile Exam Gloves offer superb elasticity and ultra-comfortable fit in a glove not made with natural rubber latex. The Blueline™ Plus line offers additional enhancements including thicker fingertips and improved donning. These gloves are tested for use with chemotherapy drugs.

510 - Extended Cuff Nitrile Exam Gloves

Blueline™ Extended Cuff Nitrile Exam Gloves are 12 inches in length and offer superior elasticity to provide a better feel and a more comfortable fit. The extra length and extra thickness provide greater protection for hands as well as over the wrist and forearms. Designed for the health care providers' protection in mind against body fluids, and for use with Chemotherapy agents in high-risk clinical settings.

508 - Sterile Nitrile Exam Gloves

Blueline™ Sterile Nitrile Exam Gloves offer superior elasticity to provide a better feel and a more comfortable fit. Ideal for use with sterile procedures at the patient bedside, such as endotracheal suctioning. Gloves are lightly textured which improves their ability to grip. Designed for the health care providers' protection in mind against body fluids.

Blueline™

VINYL EXAM GLOVES

406 - Stretch Vinyl Exam Gloves

Blueline™ Stretch Vinyl Exam Gloves are general use gloves which feature a smooth finish and a softer vinyl for more flexibility and comfort, as well as excellent donning characteristics. The smooth finish provides greater tactile sensitivity making the stretch vinyl exam glove suitable for a variety of tasks.

NOT MADE WITH NATURAL RUBBER LATEX

SINGLE USE

POWDER-FREE

DOUBLE GLOVING

With the Blueline™ full line of Exam Gloves and the spectrum of colors offered, you can easily double glove in high risk situations. The underglove will be clearly visible if the top layer is breached, as long as the two layers are from different lines of Exam Gloves.

Safety is a high priority at S2S Global and we are proud to provide an easy solution for challenging environments at our member hospital systems.

Double Gloving using 504 and 510 Blueline™ Exam Gloves

For more information about our comprehensive line of Exam Gloves, please contac your Blueline sales representative.
