RESILIENCY

Increase supply chain resiliency and protect against product shortages

TRUST

Factory direct shipments & reduced logistic failure points

SAVINGS

Additional Savings realized due to reduced supply chain costs

OUR DIRECT SOURCING VISION

- Source and produce commodity products both domestically and internationally.
- Provide meaningful cost reduction opportunities for our customers.
- Establish the capability to support customers to receive direct container shipments, taking additional cost out of the supply chain.
- Mitigate the risks of product shortages due to external factors, such as pandemics or government shutdowns due to our direct-to-factory relationships.
